

TANK OWNER/OPERATOR INFORMATION DOCUMENTS

A packet of forms and information has been put together for your use.

- **Tanks That Are Exempted from Underground Storage Tank (UST) Rules**
- **Summary of Requirements for Underground Storage Tanks**
- **Additional Sources of Information for Owners/Operators**
- **Underground Storage Tank 30 Day Notice**
- **Underground Storage Tank Closure and Site Assessment Notice**
- **Underground Storage Tank Information/Checklist Order Form**

"Tanks That Are Exempt From Underground Storage Tank Rules" describes tanks that are not regulated by the Department of Ecology.

"Summary of Requirements for Underground Storage Tanks" discusses the minimum requirements for complying with the UST regulations.

The Pollution Liability Insurance Agency provides information regarding liability insurance or reimbursement for testing. The Air Quality Program and the U.S. Small Business Administration also provide assistance to owners and operators of USTs. **"Additional Sources of Information"** summarizes that assistance.

If you intend to install or permanently close an UST, submittal of a **"30 Day Notice Form"** to Department of Ecology is required. The **"Underground Storage Tank Closure and Site Assessment Notice"** is submitted after the closure or change in service work is complete. For information on permanently closing an UST, request the permanent closure and site assessment package listed on the attached checklist.

Additional items relevant to owners/operators of USTs are available, upon request, from the Department of Ecology. To obtain copies of related documents, complete the **Underground Storage Tank Information/Checklist Order Form** and send it to:

**Department of Ecology
Toxics Cleanup Program
PO Box 47655
Olympia WA 98504-7655**

If you have any questions regarding these forms or other items listed as available, call Ecology at 1-800-826-7716 to leave a message, and we will be happy to assist you.
